

## Literature Related to Airspace Capacity Allocation

This document holds some prior literature subdivided by topic that may be helpful in the study of airspace demand management through congestion pricing and user incentives. The index for each paper refers to its position in this [annotated bibliography](#), which contains a brief summary for many of the papers. For more information on the motivation for this work, go to <http://www.people.virginia.edu/~bph4r>

Please direct any comments or corrections to me at [bph4r@virginia.edu](mailto:bph4r@virginia.edu)
