

CONFRONTING SUBURBAN DECLINE

Strategic Planning for Metropolitan Renewal

William H. Lucy and David L. Phillips

The authors examine:

- **why suburban decline has become widespread**
- **how the “tyranny of easy development decisions” often results in new housing being built outside of areas that people prefer**
- **how strategic planning can help assess dangers**
- **how some suburbs have stabilized or revived**
- **how interactions between residential mobility and the age, size, and location of housing can help policy makers anticipate dangers and opportunities facing neighborhoods and jurisdictions**

William H. Lucy is professor in the Department of Urban and Environmental Planning at the University of Virginia and author of *Close to Power* (Planners Press, 1988).

David L. Phillips is associate professor in the Department of Urban and Environmental Planning at the University of Virginia.

384 pages • tables, figures, index • Available Spring 2000
Paperback: \$35.00 ISBN: 1-55963-770-6

Sprawling commercial and residential development in outer suburbs and exurban areas has for a number of years masked increasingly severe socioeconomic problems in suburban America. In recent decades income declines, crime increases, and tax base erosion have affected many suburbs to an extent previously seen only in central cities.

In *Confronting Suburban Decline* William H. Lucy and David L. Phillips examine conditions and trends in cities and suburbs since 1960, arguing that beginning in the 1980s, the United States entered a “post-suburban” era of declining suburbs with maturation of communities accompanied by large-scale deterioration. In-depth case studies are provided of Richmond, Virginia and Washington, D.C., along with examples from Minnesota, Oregon, Maryland, Tennessee, and other locations. In addition, the book offers information and statistics on income, population, and racial transitions in 554 suburbs in the nation’s twenty-four largest metropolitan areas.

Making the case that a high quality natural and built environment is key to achieving economic stability, the authors set forth a series of policy recommendations with federal, state, regional, and local dimensions that can help contribute to that goal.

Confronting Suburban Decline provides a detailed look at the causes of and responses to urban and suburban decline. Planners and policymakers as well as students and researchers involved with issues of land use, economic development, regional planning, community development, or intergovernmental relations will find it a valuable resource.

Yes, I would like to order *Confronting Suburban Decline* by Lucy and Phillips:

_____ paperback copies @ \$35.00 each (ISBN: 1-55963-770-6)

Please add \$5.75 for shipping for the first book, \$2.00 for each additional book. California residents add 7.25% tax; Washington, D.C. residents add 5.75% tax.

Send orders to: **Island Press**
Dept. 2AU
P.O. Box 7
Covelo, CA 95428

To order by phone, call **1-800-828-1302**
(M–F, 8:00 a.m. to 5:00 p.m., Pacific Coast Time)

For inquiries or to order by phone, call **1-800-828-1302** M.–F., 8:00 A.M. – 5:00 P.M., Pacific Coast Time. Outside of the U.S. and Canada, call **707-983-6432**. Fax orders to **707-983-6414**.
