

## Game Instructions: "Eye"-Pod UVA History Challenge

### The Game Goal

Your mission is to uncover a mystery location on the University of Virginia Grounds. This location is of great historical significance and importance and can only be uncovered by your diligent detective work. In order to uncover the final mystery location, you have to visit 11 different locations on the UVA grounds. At each location, you will uncover a letter. Once you have collected all 11 letters, unscramble them into a one word and listen to the final audio clue. The clue and final word will guide you to find the game's mystery location.

### The Materials I need to play:

Audio Clues                      Game Map                      Digital Camera (optional)

### Step 1. Starting the Game.

Start the game on the Lawn at the Rotunda. If you are playing with multiple teams, assign each team a different start off clue (1 through 11) so all teams do not head to the same location at once. After the first location, players can choose to uncover other locations in any order. The game map outlines the game playing boundaries. All locations are within this area.

### Step 2. Getting to each Location.

In order to uncover the 11 locations, you must use the audio clues and game map together to solve each puzzle. There are two audio clues for each of the 11 locations: part A and part B.

#### **A. Listen to Part A of each Audio Clue: "Finding the Location"**

Part A gives you information to help you find the correct location. Use the information and sound effects, combined with the game map, to uncover the right location.

### Step 3. Recording your Answers and Taking Pictures.

**Once you have reached the correct location, you must complete two tasks:**

#### **A. Record a Letter.**

**Listen to Part B of each Audio Clue: "Recording the Letter"** to verify that you are at the right location and get information about the letter you should record. Record the correct letter on your game map

#### **B. Take a picture as proof that you were at each location\*\***

At each location players must take a picture. The picture is a tangible proof that you visited each location if you are against other teams. Be creative and re-enact events or think of a fun theme to incorporate in your photos. You can mark off each picture taken on your map.

### Step 4. When you have found all 11 locations and letters:

**A. Unscramble the 11 letters you collected to form one word.**

**B. Listen to the Final Audio Clue - Part A.** The unscrambled word combined with the final audio clue will help you solve the puzzle.

**C. Once you have reached the final location, listen to the 2nd part of the final audio clue** to confirm whether you are at the right location. The final location will not be revealed by this clue. Instead, you must either return to obtain the answer from the game play moderator or this website to get your final answer and score

### Step 5. Scoring the Game

You can obtain your scores by submitting your answers online. If you are playing with a game moderator who knows the answers to the game, this person may also score each team's answers.

<b>Task</b>	<b>Points Rewarded</b>	<b>Total Possible Points</b>
Recording the correct Letter at each location	1 per letter	11
Taking a picture at each location	1 per location	11
Unscrambling final word	10	10
Record Final Location (with picture)	10	10
Total Points		42

### **Tie Breaker**

If two teams have the same score, the team who completed the treasure hunt and returned to the original meeting/starting point first wins.
