<b>Design Statement and Overall Quality</b>								
An articulate and clear design statement is created, named lastnamefirstname_p1 and emailed to the professor before starting project. Paragraph 1 should describe why song was chosen. Are you familiar with it? Does it have repeating elements? Does it contain a fixed electronic rhythm or natural rhythm? Is there a key change? Paragraph 2 should include information about the plan to reduce the song's length. What parts will be removed? How will the overall structure of the song be modulated? At the end of the statement, create a chart showing each part of the original song's timeline and how long each lasts. Include descriptions like, intro, verse 1, chorus 1, bridge (if applicable,) solo, outro, etc.	4	3	2	1	0	4	x 3	<b>12</b>
There are no noticeable continuity errors in final product's rhythm. There are no noticeable continuity errors in final product's pitch/key structure. There are no noticeable pops or clicks as a result of editing.	4	3	2	1	0	4	x 4	<b>16</b>
Song retains original or similar beginning and end elements. If original has a fade out then the final product uses the same length fade. If the original has a "cold" ending then it is retained.	4	3	2	1	0	4	x 4	<b>16</b>
